

The screenshot displays the phpMyAdmin web interface. The browser address bar shows the URL: localhost/phpmyadmin/index.php?route=/table/sql&db=exhibition_db&table=cars. The interface is divided into several sections:

- Top Bar:** Displays the server name (127.0.0.1), database name (exhibition_db), and table name (cars). It includes navigation tabs: Browse, Structure, SQL, Search, Insert, Export, Import, Privileges, and Operations.
- Left Sidebar:** Shows the database structure with a tree view. The 'exhibition_db' database is selected, and the 'cars' table is highlighted. Other databases listed include blog_site, information_schema, mysql, performance_schema, phpmyadmin, and test.
- Main Content Area:**
 - Query Box:** Contains the SQL query: `SELECT * FROM cars;`. Below the query box are links for Profiling, Edit inline, Edit, Explain SQL, Create PHP code, and Refresh.
 - Table View:** Displays the data from the 'cars' table. The table has columns: car_id, make, model, price, and yom. There are 5 rows of data.

car_id	make	model	price	yom
1	Holden	Astra	14000.00	2009
2	BMW	X3	35000.00	2010
3	Ford	Falcon	39000.00	2013
4	Toyota	Corolla	20000.00	2012
5	Holden	Commodore	28000.00	2009
 - Query Results Operations:** Includes buttons for Print, Copy to clipboard, Export, Display chart, and Create view.
- Bottom Console:** A small area at the bottom of the interface for displaying query results or errors.

The screenshot displays the phpMyAdmin web interface. The top navigation bar shows the server path: localhost/phpmyadmin/index.php?route=/table/sql&db=exhibition_db&table=cars. The left sidebar contains a tree view of databases, with 'exhibition_db' selected and 'cars' highlighted. The main content area shows the 'cars' table structure and a SQL query: `SELECT make, AVG(price) FROM cars GROUP BY make;`. The query results are displayed in a table with columns 'make' and 'AVG(price)'. The results are as follows:

make	AVG(price)
BMW	35000.000000
Ford	39000.000000
Holden	21000.000000
Toyota	20000.000000

The interface also includes a 'Query results operations' section with buttons for Print, Copy to clipboard, Export, Display chart, and Create view. The bottom status bar shows the system clock and weather information.

The screenshot shows the phpMyAdmin web interface. The browser address bar displays the URL: localhost/phpmyadmin/index.php?route=/table/sql&db=exhibition_db&table=cars. The interface is divided into several sections:

- Top Navigation Bar:** Contains links for 'Browse', 'Structure', 'SQL', 'Search', 'Insert', 'Export', 'Import', 'Privileges', and 'Operations'.
- Left Sidebar:** Shows a tree view of databases and tables. The 'exhibition_db' database is selected, and the 'cars' table is highlighted.
- Main Content Area:**
 - Query Box:** Displays the SQL query: `SELECT make, model FROM cars WHERE price >= 20000;`. Below the query box are buttons for 'Profiling', 'Edit inline', 'Edit', 'Explain SQL', 'Create PHP code', and 'Refresh'.
 - Table View:** Shows the results of the query. The table has two columns: 'make' and 'model'. There are four rows of data:

make	model
BMW	X3
Ford	Falcon
Toyota	Corolla
Holden	Commodore
 - Extra options:** Includes checkboxes for 'Show all', 'Number of rows' (set to 25), 'Filter rows' (Search this table), and 'Sort by key' (None).
 - Query results operations:** Includes buttons for 'Print', 'Copy to clipboard', 'Export', 'Display chart', and 'Create view'.
- Bottom Console:** A small area at the bottom of the interface for displaying messages or errors.
